

School Accountability Report Card Reported Using Data from the 2021–22 School Year

California Department of Education

For Greenacre Homes & School Gravenstein

Address: 1665 Gravenstein Hwy N, Sebastopol **Phone:** 707-829-1366

Principal: Jennifer Dalton-Warner

Grade Span: 5-12+

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Throughout this document the letters DPL refer to data provided by the LEA, and the letters DPC refer to data provided by the CDE.

Table 3: School Description and Mission Statement (School Year 2022–23)

The school program is consistent and complimentary to the residential program catalyzing the clients' transition into a less restrictive placement and a greater overall independent level of functioning. Dysfunctional behavior more than any other factor prevents integration of students into a less restrictive setting; thus, it is a prime focus for the school program. The school provides a solid consistent, and predictable structured setting supported by a strong behavior modification program employing a point system, privilege program, and a realistic student store. A major portion of each day is dedicated to raising the reading, writing, and arithmetic skills of the clients. Development of these basic skills eases students' transition into public school classrooms. There are a number of enrichment classes during the school week focusing on natural sciences, history, current events, physical fitness, and the arts. The academic program also includes regular practicing of speech and language exercises designed by our Speech and Language Pathologist. We create a therapeutic milieu focusing on relationships, development, and care. Also, our school specializes in vocational training (5 job sites in the community), and our licensed therapists provide individual, group, and family counseling, and weekly social skills classes. Additional professionals include an Occupational Therapist and a Psychiatrist overseeing medication.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Table 15: CAASPP Test Results in ELA and Mathematics for All Students Grades Three through Eight and Grade Eleven taking and completing a state-administered assessment

Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2020–21	School 2021–22	District 2020–21	District 2021–22	State 2020–21	State 2021–22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	0	N/A	4	N/A	47
Mathematics (grades 3-8 and 11)	N/A	0	N/A	1	N/A	33

Note: Where it was the most viable option, in 2020–21, LEAs were required to administer the statewide summative assessment in ELA and mathematics and where a statewide summative assessment was not the most viable option for the LEA, LEAs were permitted to report results from a different assessment that meets the criteria established by the California State Board of Education on March 16, 2021. The 2020–21 data cells for the

school, district, state have N/A values because these data are not comparable to 2021–22 data.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: For any 2020–21 data cells with N/T values indicate that this school did not test students using the CAASPP for Science.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Table 20: Career Technical Education Programs (School Year 2021–22)

Greenacre Homes has developed an exhaustive vocational education and career development program. Vocational Essentials include: student responsibility; community-based learning; team work; continuity with academics and work; community collaboration; and real-life experiences. Program Goals include: preparation for adult roles – self-sufficient wage earner; productive community citizen; lifelong learner and worker. Important Elements include: active participation in real life experiences; student centered programs; standards and accountability; complete team support and guidance - student, parent, teachers, community, home, and business. Students at Greenacre Homes experience the whole process of a acquiring and maintaining a job. The vocational instructor aides the students with: conducting job searches, filling out the job application, attaining a work permit when necessary, preparing for the interview, completing all paperwork and documentation, securing the position, arranging transportation, purchasing uniforms, getting identification cards, setting up bank accounts, and working at the job site. Currently, Greenacre Homes has six full-time staff and additional support staff overseeing the vocational program, and is in the process of hiring additional staff to ensure continuous improvement and success. Greenacre Homes provides vocational education and real-life career development with the following agencies:

1. Rite Aide in Sebastopol
2. CVS in Sebastopol
3. Rosa Market in Forestville
4. Redwood Empire Food Bank in Santa Rosa
5. Andy’s Market in Sebastopol
6. Greenacre Homes, Inc. - Agriculture and Maintenance
7. Sebastopol Cinemas

At the different job sites, Greenacre Homes provides vocational instructors to work closely with the students and the employers. Rite Aide, CVS, and Andy’s Market provides students the opportunity to work closely with the community. While stocking and facing shelves, students have continual contact with customers and fellow employees at the stores. At the Redwood Empire Food Bank, students review inventory, stock shelves, price and sell merchandise, and maintain the warehouse appearance. Students also work in various support service departments at Greenacre Homes. Students aide with inventory, purchasing, distribution, food preparation, and meals in the food service department. They also help with landscaping, construction, painting, building, and carpentry in the maintenance department. The Agriculture program includes: about 75 apple trees, a large garden, a greenhouse, and additional ground maintenance. Students learn about planting, growing, harvesting, and production of a variety of different plants, vegetables, and fruit.

Note: Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Table 24: Opportunities for Parental Involvement (School Year 2022–23)

Greenacre School communicates with the parents on a daily basis and will hold meetings when necessary or requested by the parents. Parents attend annual IEP meetings and are welcome to participate in annual events including: Graduation, Christmas and Holiday Party, Harvest Extravaganza, Halloween Party, Talent Shows, and other special events. During long-distance learning Greenacre School provided daily lunch and breakfast deliveries and weekly homework and participation incentive deliveries.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

Table 28: Suspensions and Expulsions for School Year 2019–20 Only

Expulsions	0	0	0.05

Note: The 2019–20 suspensions and expulsions rate data are not comparable to other year data because the 2019–20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–20 school year compared to other school years.

Table 31: School Safety Plan (School Year 2022–23)

Health, Emergency and Fire Plan

Each class is supplied with an Emergency Care and Disaster Plan information sheet. This form is posted in a prominent place in the facility. The disaster plan form provides vital emergency information. Staff members should familiarize themselves with the location of the form and the information that it provides, such as emergency names and phone numbers: doctor, dentist, police, fire, poison control, crises hotline, where exits are located within the school, temporary relocation sites, utility shut off points, the location of smoke detectors, the location of the fire alarm and where to find fire extinguishers. The temporary relocation addresses provided are given in case some event occurs that renders the school uninhabitable or hazardous. School administrators will make the determination as to whether or not the school is hazardous. Obviously, in the event of fire, flood or explosion this would be the case and the students should be taken to the first facility that is listed.

Fire Plan

Each classroom has a hard-wired smoke detector system as well as a pull station fire alarm. These are not directly connected to the fire department. In the event of a fire, dial 911 or the fire department number listed on the Emergency Care and Disaster Plan. The procedure for fire drills is the same for each classroom. Staff members should remove themselves and the students from the classroom as quickly as possible. No one should stop to remove valuables or possessions. The only difference between classrooms would be the meeting place that is established. The meeting place is the basketball court all staff members and students should go in order to be accounted for. Once there, one staff member should be responsible for making a head count of students to insure everyone's safety.
